

# Jahangirnagar Journal of Mathematics and Mathematical Sciences (JJMMS)

Department of Mathematics  
Jahangirnagar University

The Jahangirnagar Journal of Mathematics and Mathematical Sciences (*JJMMS*) is a peer-reviewed annual publication of Department of Mathematics, Jahangirnagar University. The journal publishes original work on Mathematics and Mathematical Sciences.

## Initial Submission

As *JJMMS* employs double blind reviewing, submitted manuscript has to be sent to two reviewers simultaneously. At the submission stage, authors may also suggest a list of potential reviewers; these suggestions are often helpful, but they are not always followed. Authors must pay an article processing charge during the submission of manuscript at the following rates: BDT 2000.00 (Bangladesh), US\$50.00 (rest of the world), excluding any kind of charge. One can pay the charge to the Bkash Account No: 01717192594. Accepted Manuscripts will also be published online.

The authors intending to contribute to *JJMMS* are requested to note the rules as follows:

- The submitted manuscript must not have appeared elsewhere. Authors are solely responsible for the factual accuracy of the contributions.
- Three (3) hard copies of the manuscript in English should be submitted. Two (2) of them should not include the authors' name and affiliation while one of them should include authors' name and affiliation precisely.
- 12 point Times New Roman font with double spacing and one-inch margins should be used throughout the manuscript.
- The first page of the manuscript should include the title of the manuscript and complete contact information for each of the authors. The corresponding author should be clearly noted in the case of multiple authors.
- Manuscript should include an abstract of maximum 200 words, and at least five (5) keywords that accurately reflect its content. Abstract must reflect the original theme, methods used, and findings of the article which can be used for indexing purpose.
- Headings and sub-headings should be left aligned throughout the manuscript using both upper and lower case letters.
- Tables should be typed in the body of the text and numbered serially in Arabic numerals in the order in which they are mentioned in the text. Each table should bear a descriptive title and be referred to in the text by the respective numbers.
- Figures should be presented in the center alignment of the page and numbered serially in Arabic numerals in the order in which they are mentioned in the text.
- References should follow the author-date system by using the APA (American Psychological Association) style of referencing. The reference should begin on a new manuscript page in **A to Z** format, with the heading **References** appearing left aligned of the page in the following manner:
  - (i) Author, (year). Title of article, Title of Journal, Vol. pp-pp.
  - (ii) Author (year), Title of Book. Location: Publisher
- Manuscript should generally be limited within 14 pages.

## Revisions

In cases where the referees or Editorial Board has requested changes to the manuscript, you will be invited to prepare a revision. The decision letter will specify a deadline for submission of a revised manuscript. Once resubmitted, the manuscript may then be sent back to the original referees or to new referees, at the Editorial Board's discretion.

A revised manuscript should be submitted according to the instructions mentioned in the decision letter, and not as a new manuscript. The revision should also be accompanied by a point-by-point response to referees explaining how the manuscript has been changed.

## Final submission and acceptance

When all editorial issues are resolved, your paper will be formally accepted for publication. The received date stated on the paper will be the date on which the original submission passed our standard quality control checks, which are based on the journal's submission criteria. The accepted date stated on the paper will be the date on which the Editorial Board sent the acceptance letter.

After acceptance, authors are sent proofs of their manuscript. All corrections must be approved by the Editorial Board. *JMMS* reserves the right to make the final decision about matters of style and the size of figures.
